

Feedback for RRMP Research Presentation [Formative]

Tutor completing formative feedback: Karen Outram	Student number: Shoumik Chakraborty
Details of any extensions etc:	Submission Attempt: Formative

Thank you for submitting your formative ahead of the Research Proposal Presentation. I can see at this stage that you have a title for your intended study and that you have plotted out the sequence of the discussion.

There isn't a great deal of information for me to feed back on, and so I will 'feed forward' to the summative expectation.

Please listen to seminar 5 for all details around summative presentation: some key points I can highlight now that are general are to:

- Answer the question you pose
- Keep your response focused
- Engage with deep research on a focused topic
- Gain research from cross sectional resources
- Look at both older and newer literature
- If this is a subject you have covered before ensure there is no 'self plagiarism' in the content
- Ensure that you enter into a pros and cons debate regarding the presentation itself

Good luck with your summative,

With best wishes

Karen
